THE NATIONAL ALLIANCE
for Insurance Education & Research

Apprenticeship

Message from Executive Director:

The Mission of the IIASA and the IIAFSA is to provide solutions to meet the future retiring workforce demands estimated at 400,000 by year 2022. We encourage all agents and stakeholders to provide expert knowledge as we collaborate to build a longterm sustainable solution.

The IIASA Registered Apprenticeship Program is designed to encourage underserve youth in the SA and surrounding area to choose Insurance as a career path. In addition, the Association recognizes the opportunity to advance the vision by creating an Apprenticeship Program that will elevate diversity, inclusion, and equity in San Antonio.

Our extraordinary partnership with the National Alliance and Alamo Colleges District will synergize the educational arm of the IIASA and the IIAFSA by providing candidates with certified skills that will prepare young adults to enter into the workforce with employable skills that you as an employer will benefit from on their first day of employment.

Benefits as a Member

- **Alignment of skills w/ industry**
- **Highly skilled trained pipeline**
- **21st century modern skills**
- **Keep up Industry required training**
